+91 – 7903066361

Third-year B.Tech CSE (Blockchain Tech) student at Amity University, learning the fundamentals of Cybersecurity, Ethical Hacking, and Network Security. Gaining hands-on experience through labs and internships, with additional interest in secure coding and web development.

Education

- B.Tech, Computer Science & Engineering with Blockchain Technology – 8.33 CGPA **2023-27**
Amity University Gurgaon
- 12th (Senior Secondary Examination) – 81% **2023**
- 10th (Secondary Examination) – 94% **2021**

Technical Skills

- Cybersecurity Tools & Concepts –
 - Learning the basics of **ethical hacking**, **networking**, and **Linux fundamentals**
 - Exploring topics like **OWASP Top 10**, **threat modeling**, and **vulnerability assessment**
 - Gaining hands-on experience (**beginner level**) with tools like **Wireshark**, **Burp Suite**, **Nmap**, and **Metasploit**
- Programming Languages – C, C++, Python
- Web Technologies – MySQL, HTML, CSS, JavaScript, MongoDB(Basics)

Internships

Cyber Security Intern, National Informatics Centre (MeitY) **Jun'25-Jul'25**

- Worked on vulnerability assessment, security auditing, and documentation of misconfigurations across public-facing government applications. Focused on identifying common web vulnerabilities, analyzing risk impact, and preparing structured VAPT reports aligned with organizational standards.

Cyber Security Training and Internship, Embrizon Technologies **Dec'24-Feb'25**

- Completed a Cyber Security Training and Internship at Embrizon Technologies, gaining hands-on experience in penetration testing, vulnerability assessment, network security, and ethical hacking using various tools.

Web Development Intern, Prodigy Infotech **Sept-Oct'24**

- Worked on full-stack development tasks during the internship, gaining hands-on experience in HTML, CSS, JavaScript, backend integration, debugging, optimization, and web development best practices.

Academic Projects

AgentRecon – Modular AI-powered reconnaissance and vulnerability analysis pipeline **Jun'25-Jul'25**

- automates the recon process by integrating traditional tools like:
 - nmap, masscan, nikto, gobuster, sslyze
- Custom modules for CVE enrichment (via NVD + AlienVault OTX)
- AI-driven false positive filtering

Discord Bot – Dr FUSED – Made using JavaScript (Node.js) and MongoDB Integration **Sept'24-Present**

- Developed a modular Discord bot with features such as moderation, logging, and interactive commands.
- Implemented role-based access control and permission logic.
- Continuously patched vulnerabilities and followed Discord API security best practices.

Certifications

- [Cybersecurity Fundamentals](#) by IBM SkillsBuild
- [Introduction to Cybersecurity](#) by Cisco NetAcad
- [Fortinet Certified Fundamentals](#) in Cybersecurity
- [Responsive Web Design](#) by freeCodeCamp
- [JavaScript Algorithms and Data Structures \(Basics\)](#) by freeCodeCamp
- [Google Cloud Computing Fundamentals](#) and [Generative AI Study Jam](#)

Nov'24
Sept'23

Achievements

- 13th place out of 80 teams in **CTF** by IEEE-CS & IIT Bombay Trust Lab
- Participated in SIH2024, Problem Statement ID - SIH1674
- Google Cloud Computing Fundamentals and Generative AI Certificate
- 100 Day Streak, 200830 Rank, Level [0x8][HACKER] in [TryHackMe](#)

Extra-curricular Activities

- **Member of the Mission VEERANGANA Workshop Organizing Team**
Managed participant security records, streamlining data privacy and attendance handling.
